

project-1

CiBot

Uh oh! A recent push by <@dev 1> resulted in a <percentage> reduction in code coverage.

Should I create an issue called <title> and assign it to <@dev 1>?

YES

YES, BUT CHANGE ASSIGNEE

NO

Sounds good. Who would you like to assign to the <title> issue?

Timothy

Assign it to <@dev 3> and <@dev 2>.

CiBot

Will do. The <title> issue has been created and assigned to <@dev 3> and <@dev 2>.
